Amacı / Purpose	Günümüz uluslararası ilişkiler ortamında, belirli bölgelerde ortaya çıkan krizler sistemin temel aktörleri olan devletlerin güvenlik ve dış politikalarını yakından etkilemektedir. Bu bağlamda, özellikle Akdeniz ve Karadeniz havzasında yaşananlar oldukça dikkat çekicidir. Zaman zaman bu bölge devletlerini karşı karşıya getiren bu olayları akademik bir yaklaşımla, bu derste ele almak ve incelemek, uluslararası ilişkiler talebelerimizin doğru analiz yapmalarına imkân sağlayacaktır. Bu derste aşağıdaki konu başlıkları dışında, ortaya çıkan yeni güncel gelişmeler doğrultusunda yeni konularda ele alınıp incelenecektir.	In today's international relations environment, crises that occur in certain regions closely affect the security and foreign policies of the states, which are the main actors of the system. In this context, especially what happened in the Mediterranean and Black Sea basin is quite striking. Handling and analyzing these events, which occasionally confront the states of this region, with an academic approach in this course will enable our international relations students to make correct analysis. In this course, apart from the following topics, new topics will be handled and analyzed in line with the emerging current developments.
